Comments: (If possible, please reference section number and/or page number in document if applicable.)

1 ☐ Why must the waste come to Nevada? The waste should remain on the site, therefore inspiring technicians to produce less. Used material is very volatile. It's unable to drill there, let alone store waste.

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape. ①
